

Agility Business Solutions, Inc.

# Professional Services

## Highlights:

All professionals are certified by Microsoft as Business Management Solutions Specialists or Business Management Solutions Professionals, the highest certification level available.

Many are 20 year employees, illustrating our commitment to build an individual team, not just a team of individuals.

Provide “best-fit” solutions to problems, not just “quick-fix” resolutions. Get implementations that are “what you want” AND “what you need”.

As a Microsoft Partner Advantage Partner, our commitment to providing quick and easy access to Microsoft Technical Resources is ensured with quick turnaround on support incidents (1 hour), plus around the clock support during go-lives.

Employing Microsoft Dynamics SureStep Implementation Methodology, manage your implementation effectively so that expectations are met and budgets realized.

ABS Professionals have years of experience implementing enterprise level manufacturing and distribution systems. As an early adopter of Microsoft Dynamics AX, your implementation rests in experienced, trusted hands.

**Financial Consulting** • ABS financial consultants maintain certifications as Certified Public Accountants (CPA), Certified Cost Accountants (CCA), or Certified Managerial Accountants (CMA).• ABS financial consultants have expert knowledge of complex financial situations including international financial regulations, tax implications, currency exchange issues and multi-company concerns. • ABS financial consultants specialize in the implementation and training of manufacturing accounting systems. • ABS financial consultants are experts in financial regulatory compliance issues such as IRS regulations, FASB, Sarbanes Oxley Compliance, and Value Added Tax (VAT).

**Manufacturing and Distribution Consulting** • ABS manufacturing and distribution consultants are internationally renowned and average over 20 years of experience in application training and systems implementation at leading companies worldwide. • ABS manufacturing and distribution consultants have extensive skills creating effective workflows in job shop and repetitive environments as well as on distribution lines. • ABS manufacturing and distribution consultants are APICS and industry certified specialists. ABS manufacturing and distribution consultants have an extensive background working in regulated environments such as: MIL-Q, Q1, QS9000-9001, ISO 9000-9002, GMP/FDA.

**Technical Consulting** • ABS technical consultants average over 15 years of experience developing, enhancing, and implementing applications for manufacturers and distributors. • ABS technical consultants are excellent coders and fluent in business and manufacturing communication. This removes the "mis-communication" aspect common when converting business processes. • ABS technical consultants have spent years in manufacturing environments, and employ not only technical skills but also business acumen to design and program application solutions. • ABS technical consultants regularly engage in continuing professional education and also instruct at the professional and collegiate level.

**Systems Integrators** • ABS systems integration consultants average over 15 years of information technology experience. • ABS systems integration consultants provide the implementation skills to ensure a reliable and effective network infrastructure exists to run the application software. • ABS systems integration consultants are industry certified specialists that have extensive experience with multiple platforms and operating systems.
