SellAnywhere – the Mobile Sales Order Processing solution for Dynamics AX

Sales order processing: Anytime. Anywhere. Any device.

Benefits to Your Business:

Gain new productivity. Easily capture timely and accurate sales information from any authorized sales, dealer, or manufacturer's rep.

Full Functionality Integrated to ERP:

Since "nothing happens until someone sells something" in your business, you want to make the process easily available and efficient. SellAnywhere gives your internal and external sales force the tool to create and process orders through a secured web portal. Mobile sales orders can be created in real-time from a wireless device such as a smartphone, tablet or laptop from anywhere, 24/7.

Fully integrated with Microsoft Dynamics AX ERP system, SellAnywhere provides full remote sales entry and inventory inquiry functionality:

- Create, submit, and process orders
- View current inventory availability and product pricing in detail
- Look up customer information including order history and credit status
- Print invoices; packing slips; track shipping

Keep everyone (whether inside or outside) on your team in sync to deliver on your customer expectations with SellAnywhere's digital dashboards by job role. Dashboard views include sales, customer service, finance, and executives providing instant access to critical information to manage your business. Using secured authorization SellAnywhere provides all the advantages of today's mobile world personalized to the unique requirements of your business:

- Links – provide links to company intranet sites
- Security – Reps can be secured to only access their customers and orders
- Dashboard – Real time broadcasting of news by groups or individuals providing information and updates (such as promotions running)
